

Scrub-UF260-1

Packaged thin-film UF unit · 260 m² · rubber-media cleaning

Product overview

The Scrub-UF260-1 is a Zyramic Scrub UF packaged ultrafiltration unit: thin-film UF sheets kept clean by circulating, screen-retained rubber media. UF duty without an MBR tank or a backwash system.

Key features

- Thin-film UF sheets in a packaged tank
- Screen-retained rubber media circulates and scrubs the sheet continuously
- UF duty, no backwash, no MBR tank needed
- Handles sticky or fluctuating suspended solids with a short pretreatment train
- Ships as a packaged unit · buy or rent

Technical specifications

Parameter	Value	Unit
Membrane area	260	m ²
Envelope L × W × H	1,200 × 2,200 × 2,250	mm
Permeate (design)	7.8–10.4	m ³ /h
Membrane	Thin-film UF flat sheet	
Cleaning	Circulating rubber media + CIP; no backwash	
Duty	Ultrafiltration (not MBR biomass)	
Related family	4.0 mm sheet: Scrub-UF210 / UF280	

Manufacturer: Zyramic, Inc., Poughkeepsie, NY. Flux and capacity are Zyramic design values; your proposal sets the design point for your feed. Call 845-402-6318.
